

CALIFORNIA ENERGY COMMISSION

1516 NINTH STREET
SACRAMENTO, CA 95814-5512**NOTICE OF PROPOSED AWARDS****Adaptation of Advanced Mobile Combustion Engine Technologies for
Distributed Energy Resources and Combined Heat and Power Grant
Solicitation PON-08-001****April 9, 2009**

On October 6, 2008 the California Energy Commission (Energy Commission) released a competitive grant solicitation seeking proposals on adaptation of advanced mobile combustion engine technologies for distributed energy resources (DER) and combined heat, and power (CHP) under the Advanced Generation (formerly known as Environmentally Preferred Advanced Generation) Program Area of the Public Interest Energy Research (PIER) Program. The solicitation announced that up to \$2 million in funding was available.

The proposals were screened, reviewed, evaluated, and scored using the criteria prescribed in the solicitation. Based on the Technical Advisory Committee (TAC) scores and suggested funding level, the Energy Commission's Research, Development, and Demonstration (RD&D) Committee proposes to award \$1,997,520.00 and fund the top two passing projects for this solicitation. This Notice of Proposed Awards is hereby issued pursuant to those recommendations.

The attached table, Committee Funding Recommendations for the Adaptation of Advanced Mobile Combustion Engine Technologies for Distributed Energy Resources and Combined Heat and Power Grant Solicitation, identifies each of the applicants recommended to receive funding, the project title, the amount of recommended funding by the RD&D Committee, and scoring information.

Final approval of these awards rests with the Energy Commission, which will consider each project recommended by the RD&D Committee during a publicly noticed Business Meeting at the Energy Commission in Sacramento, California.

This notice is being mailed to all parties who submitted a proposal to this solicitation and is also posted on the Energy Commission website as follows:
